

Remedy

by kovet

Senior Living

Remedy by Kovet was established with the belief that comfort is the greatest luxury of all. Each piece in our collection was designed and engineered with Environments of Care in mind, curating some of our favorite pieces from Kovet's hospitality line and previous projects. Styles range from fresh contemporary to a reimagined traditional look.

With the ideal amount of lumbar support and comfort, sturdy arms and frames, *Remedy by Kovet* allows residents and their families to relax for hours. Each piece is thoughtfully hand-crafted with an eye to detail, incorporating the lost art of repeat pattern matching and nail-head trim. Seat and arm heights are scaled slightly higher for accessibility and ease of exit, while frames are easy to clean and maintain for lasting beauty.

Whether you decide to choose from *Remedy* or want us to customize for a specific client or need, Kovet Hospitality's manufacturing flexibility allows for this. As a vertically integrated furniture manufacturer without any required minimum's, including for metal pieces, we can tailor your project as much or as little as you need. Kovet uses only American-sourced beech and maple wood from sustainable farms for our frames. All COM materials are consolidated in our San Diego, CA facility then transported to our factory in Tijuana, Mexico for production. Once at the factory our team will mill, cut, sand, finish and upholster each piece specifically to your order. Giving each piece we manufacturer hand-crafted attention.

To help ease the full selection process, whether you are a designer or an end-user, our large collection of standard wood, metal finishes and nail-head trim options offer you the ability to customize every project. We took extra time and care to curate a vast array of durable, contract quality and residentially-styled fabric collections with some of the premier fabric suppliers in our industry to help you create a warm home-inspired atmosphere for any environment, allowing you to be creative and individual in your designs.

We look forward to helping you create lasting environments!

Meet Our Team

Reasons to use Kovet Hospitality. Did you know?

- Kovet is a Vertically Integrated Manufacturer from raw wood to finished upholstered items, having complete control over manufacturing and construction.
- Customizing is what we "do". Just ask.
- Skilled craftsman with decades of experience who can match pattern repeats.
- "Tailor Made" proprietary procurement portal where you can view your project as it runs through the factory, including seeing photos of each piece once completed.
- Location! We are not dependent on third party suppliers for frames or components, or excessive lead times due to Chinese New Year.
- All our metal work is produced in Mexico.
- Sales and Service teams here to support you from start to finish.
